Water Genius!

Zilver Sensor Tap

Item Code : **ZY9050**

Description:

Zilver Infrared Automatic Basin Spout is truly modern with its innovative infrared technology. Fully hands-free operation via the built-in infrared sensor means that this spout provides an easy and hygienic wash on a daily basis. A strikingly curved angled design for this piece is not just a visual flourish but also ensures convenient placement so that simply placing your hands within the sensing range activates the water flow which also makes it water-efficient. It is constructed using best quality brass and finished in shiny chrome for a durable and sophisticated looking fitting.

SPECIFICATION

Product Standard EN 15091

Aerator Type M24X1 Male Threaded

Flow Rate 7.5 – 9 Lt / Min (3 Bar)

Operation Type Electronic and Sensor with Automatic Photocell Eyed

Spout Length 95 mm

Spout Height 135 mm

Water Connection Flex Dimension 1/2"

Max. Performance Temperature 80°C

Suggested Performance Temperature 60°C

Photocell Faucet Energy Feed System Electric (220V / 12V) and Battery (6V DC Lithium Cell)

Product Total Height 160 mm

(Made in Turkey)
