GROHE PLUS –  
**ACCURACY THAT GOES  
BEYOND DESIGN**

GROHE PLUS –  
**AN INNOVATIVE,  
ARCHITECTURAL  
SILHOUETTE**

**ELEGANT, TACTILE CONTROL**

GROHE Plus is a design that takes its inspiration from the arc, an architectural icon, a shape that offers both strength and lightness. By combining the curve of a circle and the crisp, clean planes of a cube, it presents an exciting, architectural silhouette. It represents accuracy, strength and stability, coupled with innovative features that will bring comfort, convenience and control to your bathroom.

#### **A COMPLETE BATHROOM SOLUTION**

Your bathroom should be your sanctuary, a place that works perfectly, offers you refuge and comfort, and where your personal style is reflected in every detail. With GROHE you can get your whole bathroom in one place, confident that the company's decades of design expertise and engineering excellence imbue every element. You will not only find the faucets, showers and bath mixers that GROHE is famous for, but also ceramics designed to work perfectly with them, whatever style you choose. From a statement floor-mounted bath mixer to the essential finishing touches like flush plates and towel holders, you can trust GROHE to have thought of everything.

## GROHE PLUS – FORWARD THINKING DESIGN

Imagine a bathroom that offers not just sleek, cutting-edge, bold design, but also confidence and control. Where you can tell water temperature at a glance and switch water flow with just a swipe of your hand. A room where nothing is left to chance, where form delivers function in a sleek, tactile package. With the new GROHE Plus you can make it a reality.

This innovative range puts control and convenience in your hands. The GROHE Plus range includes faucets with a temperature display, so you will know the exact water temperature at all times. Plus also offers a new level of ergonomic comfort and practical function with its pull-out and swivel spout variants presented in a silhouette of architectural strength and elegance, with surfaces so sleek they invite interaction.

#### TAKE THE TEMPERATURE

The control of your faucet is completely in your hands with GROHE Plus, thanks to its innovative LED temperature display. Always know how hot or cold the water from the faucet is, moment to moment, thanks to the LED display on the top of the faucet, giving you increased control and comfort for the bathroom. For at-a-glance information, the temperature reading is also color-coded – blue for cold and red for hot – tracing a beautiful gradient. But when the flow stops, the clever display disappears again, leaving the immaculate appearance of the faucet unchanged.

Available end of 2019

Standard flow rate  
of 5.7 l/min

INNOVATIVE FEATURES  
**DESIGNED FOR COMFORT  
AND CONTROL**

Water saving flow rate  
of 4 l/min

**A GENTLE, WATER-SAVING SPRAY**

GROHE Plus is all about putting you in control, so its no surprise that the faucet also has a water-saving option. The Eco Spray function, delivering a sustainable 4 l/min, can be activated effortlessly at any time by swiping your hand in front of the lit icon, meaning you can reduce water usage without compromising your comfort or enjoyment. The soft, soothing spray is gentle on your hands and, combined with the swivel spout, is also perfect for cleaning the basin.

**THE FLEXIBLE SPOUT**

Enjoy greater user comfort and flexibility thanks to a 90° swivel spout. Turning smoothly to the left and right, the swivel spout adds a whole new level of convenience, allowing you to rinse the basin, wash your face or soap your hands unhindered.

**REACH FURTHER**

GROHE Plus redefines the notion of flexibility for a bathroom faucet, thanks to a pull-out spray. Perfect for rinsing the basin, washing your hair and more, this innovative feature means you are no longer tied to the basin, and instead can enjoy more room to manoeuvre. GROHE EasyDock means that once you are finished the spout retracts easily and smoothly back to its starting position.

The crisp lines of GROHE Plus make it an ideal fit with sharp, square ceramics, creating a consistent look throughout the bathroom

GROHE Plus features elegantly curved details for a softening effect perfectly suited to complementing round basins and adding a tactile note to a design concept

## SQUARE OR ROUND? A MATCH FOR BOTH

### **VERSATILE, SEAMLESS DESIGN**

The strength of an arc conceals its versatility – and so it is with GROHE Plus. Its distinctive, dynamic design draws on two classic shapes – the square and the circle. Thanks to its use of two surfaces – a circle bisected by a flat face – it works perfectly with both round and square bathroom fittings. Whether your bathroom sensibility is smoothly circular or crisp-edged and cubic, GROHE Plus faucet will sit perfectly with GROHE ceramics, showers and accessories, making the design process seamless.

## DESIGN HARMONY EFFORTLESSLY ACHIEVED

### A PERFECT FIT OF MATERIALS

The GROHE Plus faucet with LED temperature display has a bi-color finish, combining chrome with chic, MoonWhite acrylic glass. This modern material makes the Plus faucet a perfect fit with both GROHE SmartControl and Rainshower SmartActive shower in MoonWhite, making it even easier to create a sleek, seamless concept across the whole bathroom.

## DESIGN OPTIONS FOR EVERY CONCEPT

### THE PERFECT FINISH

Whether your bathroom is a space of timeless elegance or slick minimalist styling, the GROHE Plus is a perfect fit. The Plus range features a broad selection of sizes, with models from compact basin mixers to wall-mounted faucets and show-stopping floor-standing bath filler.
